

PG Eris 414 GAS Detector

Compact, reliable, easy to use

Comprehensive monitoring of hazardous concentrations of flammable, toxic gases and oxygen in the presence of personnel. Gas detection made easy!

Shockproof and ergonomic case, light weight, convenient mounting, loud alarm.

Long time without recharging

It is used in various industries.

Your work will be safe and comfortable with PG Eris 414!

Due to the continuous improvement of the quality characteristics of the Eris PG-414 device, the detection of dangerous gas concentrations becomes simple and accessible to everyone!

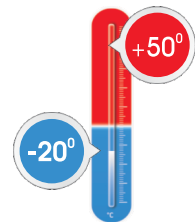

Advantages

- ◆ **Easy to take with you**
 - Yellow shockproof housing
 - Compact size
 - Two years continuous work
- ◆ **Easy to use**
 - Light indication of status, visible from all directions
 - Charge level indication
 - Loud audible alarm
 - Simple one-button operation
 - Large bright display
- ◆ **Extreme conditions to use**
 - Temperature range from -20 to +50 C⁰
- ◆ **Speed performance**
 - Rapid establishment of evidence
 - Low margin of error
- ◆ **High quality work**
 - Certified software with protection level "High"
 - Archiving of abnormal situations
 - Protection against false positives
 - Permanent self-test of evidence

Technical Specifications

Setting time	$T_{0,9} < 45 \text{ sec}$
A Larm	visual, vibrating, sound alarm 100dB
Control	Simple one-button operation
Interface language	Russian, English
Diagnostics	automatic
Attachment to clothes	«crocodile» clip
Housing material	high strength rubberized plastic
Explosion protection	1Ex d ia IIC T4 Gb X
Weight	248 g
Size	120x63x31 mm

Operation temperature

-20 C° to +50 C°
IP 66

Warranty

2 year
